

IF flat-bed scales

- Easy handling due to ergonomic design and sophisticated equipment
- Ideal for clean rooms in the pharmaceutical industry, for example, as they are designed with hygiene aspects in mind
- Suitable for operation with aggressive substances due to the use of resistant materials
- Very easy wet cleaning e.g. in wet production facilities in the food industry
- Freely moveable due to rollers and steering drawbar
- Low maintenance costs and long service life due to robust construction

(picture shows IF platform incl. optional accessories)

General specifications

IFP:

- Steel, painted (colour: RAL7030)
- IP Protection rate: IP65
- for use in hazardous area zone 2 and 22 with option Y2
- ATEX: II 3 GD EEx nA II T6 T80°C

IFS:

- Stainless steel AISI 3041
- IP Protection rate: IP68
- optionally with electro polished stainless steel load plate AISI 3041 or AISI 316 Ti
- for use in hazardous area zone 2 and 22 with option Y2
- ATEX: II 3 GD EEx nA II T6 T80°C

IFXS:

- Stainless steel AISI 3041
- IP Protection rate: IP69K
- optionally with electro polished stainless steel load plate AISI 316 Ti or in tread plate version
- for use in hazardous area zone 1 and 21
- ATEX: II 2 GD EEx ib II C T4 T150°C

Cable length

6 m, mounted on the weighing platform (as standard)

Temperature range

-10 ... +40 °C

Resolution

Verifiable in class III (1x3,000e, 2x3,000e) or non-verifiable

Others

4 x adjustable leveling feet, leveling equipment

Operating limits

Load capacity acc. to DIN 1925 / normal load 2

Weighing range in kg	ID	Max. overload center in kg	Max. overload side in kg	Max. overload corner in kg	Max. overload per axis for optional heights *
150	GG up to NL	300	150	75	150
150	NN up to WR	600	300	150	300
300		600	300	150	300
600		1,700	850	425	850
1,000		2,000	1,000	500	1,000
1,500		3,000	1,500	750	1,500
3,000		3,500	1,500	750	1,500

* Minimum wheel gauge of the vehicle (S in mm)

- applies to all optional profile heights 25 resp. 35 mm
- Calculation basis for min. wheel gauge: Width (B) minus 150 mm

Overview Options

Standard models	Option
	T4 Drive-through protection for exclusively one-sided loading and unloading
	T13 4 transport grips on the front and rear sides
	T6 Rollers on the rear side and grips on the front side for one-sided lifting and handling
	T15 Second ramp for two-sided access and use as a drive-through scale
	T14 Support arm for attaching an electronic scale display
	T9 Cover plate for added protection of the underside of the platform with openings for the load feet
Fold-up models	
	T8 Premium folding device; com-plies with NIOSH specifications for one-person operability(required lifting force < 20 kg)
	T12 As option T8 but with second ramp for two-sided access and use as a drive-through scale
	T10 Basic folding device with folding hinge and gas-pressurized spring for 2 man operation
	T11 As option T10 but with second ramp for two-sided access and use as a drive-through scale
	T9 Cover plate for added protection of the underside of the platform with openings for the load feet
	T4 Drive-through protection for exclusively one-sided loading and unloading
Models with wheels	
	T7 4 built-in foldaway wheels which can be lowered for easy handling of platform
	T5 Steering draw bar for easy pushing, combined with drive-through protection as standard
	T4 Drive-through protection for exclusively one-sided loading and unloading
	T15 Second ramp for two-sided access and use as a drive-through scale
	T14 Support arm for attaching an electronic scale display
	T9 Cover plate for added protection of the underside of the platform with openings for the load feet
